

## **Inhalation Sciences' news roundup: 2.4 MSEK sale, new patent, upcoming China installation**

With a major 2.4 MSEK sale, a new European patent and the upcoming installation of ISAB's first PreciseInhale system in China - September and October have been eventful and dynamic for Sweden's inhalation R&D innovators.

### **ZICCUM AB SHARE ISSUE OVERSUBSCRIBED 234% before listing on Spotlight**

ISAB spinout company Ziccum attracted 1,000 new shareholders ahead of its listing on Spotlight. Ziccum's technology can formulate liquid biologic therapies and vaccines - as dry powders. Making them more cost-effective and easy-to-transport. CEO Göran Conradson: "It's gratifying that the new issue has been fully subscribed and we can now begin speeding up the development of our projects."

### **NEW ORDER WORTH 2.4 MSEK FROM EUROPEAN-BASED GLOBAL CORPORATION**

In September ISAB received an order for a PreciseInhale system plus two *in vitro* modules worth 2.4 MSEK. "This order is the result of a successful, earlier research collaboration where we were able to deliver important data to the customer's development project. We're delighted with the result," says CEO Lena Heffler.

### **BREATHABLE BIOLOGICS IN BARCELONA**

ISAB CEO Lena Heffler created interest at the Inhalation and Drug Respiratory Products 2018 Conference in Barcelona in September. Developing respirable biologics was a hot topic, so ISAB's precision dosing methodology, generating aerosols from very small amounts of delicate substance, drew interest and attention.
